FREE
SMOKE ALARM
PROGRAM

The Princeton Fire Department, in cooperation with the North Carolina Office of the State Fire Marshall, will be offering free smoke alarms to anyone who is in need.

Fire Prevention and Public Education are key components of the mission of PFD.

We will be conducting neighborhood visits and public forums to identify residences that need a working smoke alarm.

Our members will be installing new, 10 year smoke alarms for those residents interested in the program.

2/3 of fire deaths occur in homes with no working smoke alarm.

Fire deaths have been cut in half since smoke alarms were introduced in the late 1970s.

Children and adults over age 65 are twice as likely to die in a fire as an average age adult
